

Advance Healthcare Directive

of Margaret Rose Avery — fictional sample

Healthcare Agent

I appoint my husband, Thomas Avery, as my healthcare agent to make medical decisions for me if I am unable to do so. Alternate agent: my son, James Avery.

End-of-Life Wishes

If I have an incurable condition with no reasonable expectation of recovery, I do not want life-prolonging treatment that only delays the dying process. I wish to be kept comfortable and free from pain.

Comfort & Care

I prefer to be cared for at home if possible, surrounded by family. Please play music and keep the windows open.

Organ Donation

I wish to donate any organs or tissue that may help others.

Signed this ____ day of _____, 2026.
